

Huawei AppGallery presents three exciting surprises

STARPICKS

Thursday, 16 Jul 2020 1:21 PM MYT

Cashbacks, free storage space up to 2,068GB among the many rewards awaiting users

WITH all the constant updates Huawei AppGallery has made so far with its introduction of new apps, many of which are frequent favs of Malaysians, local users of the flagship Huawei P40+ or its other models have direct access to popular apps.

Among the new apps recently included is the Penang Smart Parking App, which enables users in Penang to park and pay using mobile phones, eliminating the use of physical parking coupons.

These users can also easily reload their e-wallets and pay their summons using the app.

And as Huawei continues to work hard at improving its AppGallery, it rewards users with not-to-be missed surprises.

Surprise #1: RM5 cashback for first 10,000 downloads of Penang Smart Parking app

To celebrate the addition of the Penang Smart Parking app to its AppGallery, Huawei is offering RM5 cashback and other attractive rewards to the first 10,000 users who download the app from the Huawei AppGallery.

This RM5 cashback voucher can be redeemed via the Huawei Gift Centre. You can easily redeem the reward by following these easy steps:

1. Install the Penang Smart Parking app from the Huawei AppGallery.
2. Go back to Huawei AppGallery and go to Gift Centre.
3. Tap on the Penang Smart Parking banner and copy the code.
4. Key in the code in the Penang Smart Parking app and redeem your RM5 cashback.

These are the three best free programs to back up your files

The Cloud's updated back-up features are more comprehensive and flexible, allowing you to back up and retrieve data with just one tap. The upgraded sync feature lets you save your files on multiple devices, making sharing a lot more convenient as well.

And you never again have to worry about misplacing your phone, as the Find My Phone function with ringtone positioning enables you to locate your phone easily.

Surprise #3: Petal Search Widget - one stop to find all the apps you need

As a Huawei user, you can also install an app called "Petal Search Widget" that you can use to find apps that are not currently available on Huawei AppGallery, and install them directly on your device.

Here are the simple steps to follow, to add the Petal Search Widget on your home screen as well as to update the apps.

> Adding Petal Search Widget to your phone's home screen:

1. Open AppGallery on your device.
2. Search for Petal Search Widget and install it.
3. Pinch together two fingers on the home screen to access the Home Screen editor.
4. Select Widgets, then swipe left to view all widgets.
5. Touch the Petal Search Widget to add it to the home screen.

Malaysia's most frequently used apps are available on HUAWEI mobile devices

> To update the Apps in Petal Search Widget:

1. Select "Me" at the bottom right in Petal Search App.
2. Select Downloads and choose the Updates.
3. Click on the Apps that needs to be updated.

AppGallery: More secure, more storage and more rewards

Apart from the apps listed above, Huawei's AppGallery also contains ones frequently used and loved in Malaysia, such as Facebook, WhatsApp, WeChat, Line, HereWeGo, AirAsia, TikTok, Lazada, Touch 'n Go eWallet, Foodpanda, Maybank2u and more.

The AppGallery is also safe, as it is fortified with four layers of protection that have been certified by the highest industry standards.

Furthermore, you can save more storage by just using the Quick Apps to open the specific apps that you want without installing them.
